Guidance Notes on the Use of The Standard Tender Document

These guidance notes have been prepared by the CPTU to assist a Procuring Entity (Purchaser) in the preparation, using the Standard Tender Document (STD), for the procurement of Goods and Related Services. The Purchaser should also refer to the Public Procurement Act 2006 and the Public Procurement Rule 2008 (PPR2008), issued to supplement the ACT, available on CPTU's website www.cptu.gov.bd/. All concerned are advised to refer to the aforementioned Act and Rules, in particular Section 33 and Rule 83 respectively, while participating in any Tendering process.

The use of STD (PG4) applies when a Procuring Entity wishes to select a Tenderer (a Supplier) for the supply of Goods and Related Services under Open Tendering Method (OTM) in international competition for which the Contract award is being determined on the basis of the lowest evaluated responsive Tender.

STD (PG4) is based upon internationally acceptable model formats, which have been adapted to suit the particular needs of procurement for Bangladesh. STD (PG4) has 8 Sections, of which Section 1 (Instructions to Tenderers) and Section 3 (General Conditions of Contract) shall not be altered or modified under any circumstances. The Invitation for Tenders (IFT) is provided in the Tender Document for information only.

The way in which a Purchaser addresses its specific needs is through the information provided in the Tender Data Sheet (TDS) and the Particular Conditions of Contract (PCC) as well as in the detailed requirements of the procurement in the Schedule of Requirements, the Technical Specifications and/or the Drawings.

Guidance notes in brackets and italics are provided for both the Purchaser and the Tenderer and the Purchaser should carefully decide what notes need to remain and what other guidance notes might be required to assist the Tenderer in preparing its Tender Submission so as to minimise an inept Tendering process.

STD (PG4) provides all the information that a Tenderer needs in order to prepare and submit a Tender. This should provide a sound basis on which a Purchaser can fairly, transparently and accurately carry out a Tender evaluation process on the Tenders submitted by the Tenderers.

The following briefly describes the Sections of the STD (PG4) and how a Purchaser should use these when preparing a particular Tender Document.

Section 1. Instructions to Tenderers (ITT)

This Section provides relevant information to help Tenderers prepare their Tenders. Information is also provided on the submission, opening, and evaluation of Tenders and on the award of Contract.

The Instructions to Tenderer (ITT) specify the instruction and procedure that govern the tendering process. This Section also contains the criteria to be used by the Purchaser in order to determine the lowest evaluated responsive Tender and the qualifications of the Tenderer to perform the Contract. The Instructions to tenderer are not a Contract document and, therefore, are not a part of the Contract.

The text of the clauses in this Section shall not be modified.

Section 2. Tender Data Sheet (TDS)

This Section provides the information that is specific to each object of procurement and that supplements the information or requirements included in Section 1: Instructions to Tenderers.

The Purchaser shall specify in the TDS only the information that the ITT instruct, be specified in the TDS.

To facilitate the preparation of the TDS, its clause numbers are numbered with the same numbers of corresponding ITT Clauses.

Section 3. General Conditions of Contract (GCC)

This Section provides the General Conditions of Contract that will apply to the Contract for which the Tender document is issued.

The GCC clearly identify the provisions that may normally need to be specified for a particular tendering process and need to be addressed through the PCC

The text of the clauses in this Section shall not be modified.

The GCC is a Contract document and, therefore, is a part of the Contract.

Section 4. Particular Conditions of Contract (PCC)

This Section provides clauses specific to the particular Contract that modify or supplement Section 3: General Conditions of Contract.

The Purchaser should include at the time of issuing the Tender Documents all information that the GCC indicate shall be provided in the PCC. No PCC Clause should be left blank.

To facilitate the preparation of the PCC, its clause numbers are numbered with the same numbers of the corresponding GCC Clauses.

Section 5. Tender and Contract Forms

This Section provides the standard form for the **Tender Submission Letter (Form PG4-1)**, **Tenderer information sheet (PG4-2)**, **Price Schedule (Form PG4-3A,3B,3C & PG4-3D)**, **Specifications Submission and compliance sheet (Form PG4-4)**, **Manufacturer's Authorisation Letter (Form PG4-5)**, **Bank Guarantee for Tender Security (Form PG4-6)** and **Bank's Letter of Commitment for Line of Credit (PG4-6A)** to be submitted by the Tenderer.

This Section also contains the form of the **Notification of Award (Form PG4-7)** and **Contract Agreement (Form PG4-8)**, which when completed, incorporates any corrections or modifications to the accepted Tender relating to amendments permitted by the Instructions to Tenderers, the General Conditions of Contract (GCC), and the Particular Conditions of Contract (PCC).

Section 6. Schedule of Requirements

This Section provides the List of Goods and Delivery Schedule and List of Related Services and Completion Schedule and must be carefully prepared by a Purchaser for each object of procurement.

The purpose of the Schedule of Requirements is to provide information to enable the tenderer to prepare their tenders accurately, in particular, the Price Schedule, for which the Price Schedule (Form PG4-3A,3B,3C & PG4-3D) is provided.

The Schedule of Requirements, together with the Price schedule, should serve as a basis in the event of quantity variation at the time of award of contract as stated under ITT Clause 61.

- 57.4 The TEC shall determine to its satisfaction whether the Tenderer that is selected as having submitted the lowest evaluated responsive Tender is qualified to perform the Contract satisfactorily.
- 57.5 The objective of any visit under ITT Sub-Clause 57.3 shall be limited to a general and visual inspection of the Tenderer's facilities and its plant and equipment, and there shall be no discussion concerning the Tender or its evaluation with the Tenderer during such visit(s).

Brenjon Chambugong

[The Purchaser shall follow the Rule 29 of Public Procurement Rule,2008 while preparing the Technical Specifications of the Goods]

[A set of precise and clear specifications is a prerequisite for Tenderes to respond realistically and competitively to the requirements of the Purchaser. In the context of Competitive Tender, the specifications must be prepared to permit the widest possible competition and, at the same time, present a clear statement of the required standards of workmanship, materials, and performance of the goods and services to be procured. Only if this is done will the objectives of transparency, equity, efficiency, fairness and economy in procurement be realized, responsiveness of Tenders be ensured, and the subsequent task of Tender evaluation and post-qualification facilitated. The specifications should require that all items, materials and accessories to be included or incorporated in the goods be new, unused, and of the most recent or current models, and that they include or incorporate all recent improvements in design and materials]
